

POR FESR 2014-2020 – “Help to energetic efficiency project for buildings year 2017” Domanda CUP 15988.27102017.119000101

The request of financing presented is related to the energetic requalification of the building and of the installations used in the accommodation.

Had been paid attention to the installations related to heating and conditioning for home environment. Had been inserted a solar thermal system serving the accommodation.

The investment presented in the announcement foresees a cost of € 49.924,66 and a non-repayable contribution of € 19.969,86.

Targets in energy saving

Project	Consumption of primary energy before intervention (tep/year)	Consumption of primary energy after intervention (tep/year)	Energy saving (tep/year)	Energetic saving (%)	CO2 spared	CO2eq spared (t)	NOx spared (kg)	PPM10 spared (kg)M10
Conditioning intervention	9,43	8,41	1,02	10,82	2,57	2,57	1,69	0,02
Solar system intervention	9,43	5,74	3,69	39,13	8,20	8,20	4,13	0,34
Total (>10%)			4,71	49,95	10,77	10,77	5,82	0,36
